

Jessica Jefferies

Casting Director
CDA

PROFILE.

After nearly 10 years experience as one of the UK's leading performance capture artists, I have taken my performing and technical knowledge from the industry and now dedicate my time to championing for fair treatment and better contracts for talent, and the casting of actors within the VFX & Performance Capture industries. I am very ambitious in applying my knowledge when it comes to casting for Performance Capture, VFX and SFX and working closely with directors, developers and producers within the game, TV and film industries.
