WORK EXPERIENCE

JULIE HARKIN CASTING: Casting Associate; March 2019 – Present

- Dissecting scripts in order to pull out all the roles. I then work with directors, writers, and producers to shape who these characters are and assist in creating the world in which these roles live.
- Form idea lists for lead roles from my personal knowledge of actors within the industry.
- Write up character descriptions and put them into spotlight breakdowns; promoting breakdowns to be kept as open as possible while also in line with the vision for the project, to encourage diversity in all aspects.
- Nurture and promote undiscovered talent; attending drama school showcases, theatre, host workshops and keep up to date with recent TV and film releases to keep an eye on current talent.
- Running in person castings and recalls with directors & actors, as well as organising self-tapes.
- Spotlight, Cast It, Scenchronize and Office proficient.
- Prep and negotiate financial offers and complete Casting Advice Notes for Production.
- Knowledge of PACT/EQUITY.
- Participate in budget meetings with producers and understand how it steers the conversation surrounding talent.
- Bring enthusiasm, dedication and initiative to my role.

JEREMY ZIMMERMAN; Casting Intern; February 2019 (1 week)

- One-week intensive internship, in which I aided multiple admin focused tasks and received an introduction to TV & Film casting.
